Sure. In the meantime, I'll pass these dates (which I can make to work) on to Jeremiah. My thinking is that Thursday might be best – the EPA team could convene either late Wednesday or Thursday am and then we could meet with the State, flying out either late Thursday or first thing Friday.

Bob,

Kate and I spoke just now about scheduling. Wednesday, Thursday, or Friday of next week would work for us. Can we talk details during our call Thursday?

Thanks,
Howard

Kate and Howard – had a good call with Jerimiah today. He is ready for our visit to Wyoming to discuss the proposed testing program.

He asked for dates that would be convenient for our team. Could you suggest some dates that are workable on your end? We should try for next week if we can. I can reconcile your dates with my own and then respond to Jeremiah.

I also suggested a short call in advance to identify our issues and get the State thinking about them. He thought that was a good idea.

Encana now has the two papers we had received from the State and has commented back in writing. Apparently the State DEQ is working on a response. I can discuss Encana's issues on our Thursday call.

Do we have a time for the call yet, Don?
